

Program Management Solutions Built for You

CREATE A NEW DATA MANAGEMENT REALITY
WITH CIVICORE HUMAN SERVICES

So you've decided it's time to break up with the 20th century. You're ready to leave the filing cabinets, paper trail, & spreadsheets behind. It's time to make it official — you need a human services software solution to automate your program.

**BUT THE
QUESTIONS
PERSIST.**

"Do I have the time to set the system up?"

"Does *anyone* on my staff have time to set it up?"

"What is the best way to configure my system so I can create the reports I need?"

These are questions CiviCore is prepared to answer.

CiviCore believes in supporting mission-driven org's through a tailored customer experience. We do this by providing best-in-class human services & data management systems in combination with a hands-on approach to system implementation and a relentless pursuit of customer success throughout the lifetime of our relationship.

The CiviCore Approach

The CiviCore approach is unique. We understand that every human (or animal!) services org is different.

WHEN YOU PARTNER WITH CIVICORE:

Your system is built for you – based on your data fields, your reporting needs, and your team’s processes. We don’t expect you to change to fit our systems.

A named CiviCore project manager works with you to design and implement your new human services data management system. CiviCore data management experts are invested in realizing your vision. Your project manager takes care of the implementation, and your team offers feedback & support along the way.

Security and configurable data access for your team is paramount. We understand the need for data and privacy protection. Our systems are built around your team’s security profiles – and provide tailored levels of access. Support for HIPAA is available, as well.

Tracking is Job 1. Whether it’s services provided, client interactions, activities, enrollment, referrals to other service org’s, attendance, assessments, or goals and outcomes, CiviCore Human Services software delivers.

Automation saves you and your team precious time, time better spent fulfilling your mission. No more paper trails, manual services tracking, or clip boards for enrollment or attendance. Prompts and reminders are automated so you don’t miss critical meetings, deadlines, or follow up.

Reporting that provides exactly what your funders are looking for. Get automated reports for system usage, services provided, enrollment statistics, and goals and outcomes – all sorted by your chosen client criteria. You tell us what you want, we’ll help you configure and automate CiviCore’s seamless reporting to deliver exactly the data you need, just when you need it.

**Your services organization needs a better data management reality.
Let’s build one together!**
